1) The table below show the customers an arcade had leading up to the weekend.

Day	Customers
Tuesday	128
Wednesday	191
Thursday	123
Friday	197

Over the weekend they had 7 times as many customers as they did before in the previous 4 days. How many more customers did they have over the weekend than they had in the previous 4 days?

2) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	118
July	168
August	151
September	151

In October they sold 2 times as many pounds of candy as they did in the previous 4 months combined. How many fewer pounds of candy did they sell in the previous 4 months compared to in October?

1. _____

2. _____

3. _____

4. _____

3) The table below show the number of employees each store has.

Store #	Employees
1	6
2	10
3	5
4	10

A new larger store is opening that will employ 8 times as many employees as all the other stores combined. How many fewer employess did the old stores have compared to the new store?

4) The table below show the points Sarah scored on a video game each time she played.

Game #	Points Scored
1	111
2	156
3	168

After the first 3 games, she took a break and came back the next day and scored 7 times as many points as she had during all the previous games combined. How many fewer points did she score before her break than she scored after her break?

629

Over the weekend they had 8 times as many customers as they did before in the previous 5 days. How many fewer customers they have in the previous 5 days than they had over the weekend?

1. **1,284**

2. **4,403**

3. **270**

4. **2,280**

3) The table below show the number of employees each store has.

Store #	Employees
1	10
2	6
3	9
4	5

30

A new larger store is opening that will employ 10 times as many employees as all the other stores combined. How many more employees will the new store have compared to the old stores?

4) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	134
July	105
August	185
September	146

570

In October they sold 5 times as many pounds of candy as they did in the previous 4 months combined. How many fewer pounds of candy did they sell in the previous 4 months compared to in October?

1-4 | 75 | 50 | 25 | 0

Solve each problem.

1) The table below show the number of play tickets sold (excluding the first week).

Week	Tickets sold
2	134
3	139
4	171
5	112

In the first week there were 4 times as many tickets sold as there were in the next 4 weeks. How many more tickets were sold in the first week than in the remaining weeks?

2) A new fast food restaurant opened 4 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	2,988
2	1,096
3	1,985
4	3,432

The next month (after spending some money on an ad) they sold 9 times as many as they had sold in the previous 4 months. How many more burgers did they sell after running the ad?

3) The table below show the customers an arcade had leading up to the weekend.

Day	Customers
Monday	165
Tuesday	126
Wednesday	134
Thursday	131
Friday	110

Over the weekend they had 3 times as many customers as they did before in the previous 5 days. How many fewer customers they have in the previous 5 days than they had over the weekend?

4) The table below shows the number of books Sarah read the first 3 months of school.

Month	Books Read
1	20
2	20
3	27

If Billy read 3 times as many books as Sarah, how many fewer books did Sarah read?

Solve each problem.

1) The table below show the number of play tickets sold (excluding the first week).

Week	Tickets sold
2	134
3	139
4	171
5	112

556

In the first week there were 4 times as many tickets sold as there were in the next 4 weeks. How many more tickets were sold in the first week than in the remaining weeks?

2) A new fast food restaurant opened 4 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	2,988
2	1,096
3	1,985
4	3,432

9501

The next month (after spending some money on an ad) they sold 9 times as many as they had sold in the previous 4 months. How many more burgers did they sell after running the ad?

1.   **1,668**

2.   **76,008**

3.   **1,332**

4.   **134**

3) The table below show the customers an arcade had leading up to the weekend.

Day	Customers
Monday	165
Tuesday	126
Wednesday	134
Thursday	131
Friday	110

666

Over the weekend they had 3 times as many customers as they did before in the previous 5 days. How many fewer customers they have in the previous 5 days than they had over the weekend?

4) The table below shows the number of books Sarah read the first 3 months of school.

Month	Books Read
1	20
2	20
3	27

67

If Billy read 3 times as many books as Sarah, how many fewer books did Sarah read?
