

**Solve each problem.****Answers**

- 1) Amy bought two coloring books. One had five pictures and the other had twenty-one. After one week she had already colored thirteen of the pictures. How many pictures does she still have to color?
- 2) A pet store had twenty-one siamese cats and twenty-one house cats. During a sale they sold eleven cats. How many cats do they have left?
- 3) While shopping, Tiffany bought thirteen green towels and nineteen white towels. If she gave her mother ten of them, how many towels did Tiffany end up with?
- 4) Edward was trying to expand his game collection. He bought thirty-eight games from a friend and bought forty-five more at a garage sale. If eleven of the games didn't work, how many good games did he end up with?
- 5) For Halloween Robin and her sister combined the candy they received. Robin had twenty-three pieces of candy while her sister had fourteen. If they ate twenty-four pieces the first night, how many pieces do they have left?
- 6) Kaleb had twenty-five dollars. For his birthday he got fifteen more dollars but spent two on a new game. How much money does he have now?
- 7) At the arcade, Victor won sixteen tickets playing 'whack a mole' and forty-nine tickets playing 'skee ball'. If he spent fifteen of his tickets on a hat, how many tickets does Victor have left?
- 8) For the school bake sale Gwen made pastries. She baked forty-eight cupcakes and forty cookies. After the sale she had eighty-three to take back home. How many pastries did she sell?
- 9) Jerry had to wash eight short sleeve shirts and thirteen long sleeve shirts before school. If he had only washed six of them by the time school started, how many did he not wash?
- 10) A waiter at 'The Greasy Spoon' restaurant had seventeen customers to wait on. During the lunch rush he added another thirty-six customers. If five of the customers didn't leave him a tip, how many customers did leave a tip?
