## Determine the elapsed time for each problem.

1) Adam started reading a book at $2: 40$. If he finished it at $6: 15$, how long did he spend reading?
2) Faye took a train from her house to the state capitol. The train left at $3: 30$ and got to the capitol at $7: 05$. How long was the train ride?
3) Robin was helping her mom cook dinner. They finished the meal at $7: 25$. If they started cooking at 6:15, how long did it take them?
4) Tom's father started working on his truck at 3:05. If he finished working on it at 5:50, how long did he spend working on it?
5) Jerry started exercising at 4:00. If he stopped at 6:30, how long did he spend exercising?
6) Luke started cleaning up his yard at $3: 30$. If he finally finished at $5: 35$, how long did Luke spend cleaning his yard?
7) Paul woke up from a nap at $4: 25$. If he originally went to sleep at $2: 00$, how long was his nap?
8) Bianca drove to her aunt's house, arriving at 4:10. If Bianca started her drive at 3:00, how long did the drive take?
9) Amy went to the movies at 5:05. If the movie was over at $6: 55$, how long did the movie last?
10) Roger finished his homework at $5: 45$. If he started working on it at $4: 35$, how long did it take him to finish?
