

Solve each problem.

- 1) What is the value of the 8 in the number 8,796?
- 2) What is the value of the 9 in the number 482,795?
- 3) What is the value of the 3 in the number 531?
- 4) What is the value of the 6 in the number 164,795?
- 5) What is the value of the 7 in the number 839,714?
- 6) What is the value of the 5 in the number 6,581?
- 7) What is the value of the 6 in the number 46,192?
- 8) What is the value of the 3 in the number 38?
- 9) What is the value of the 3 in the number 4,613,925?
- 10) What is the value of the 1 in the number 18,932?
- 11) What is the value of the 7 in the number 761?
- 12) What is the value of the 9 in the number 52,947?
- 13) What is the value of the 7 in the number 8,257,413?
- 14) What is the value of the 7 in the number 91,738?
- 15) What is the value of the 5 in the number 845,672?
- 16) What is the value of the 4 in the number 47,591?
- 17) What is the value of the 8 in the number 78,453?
- 18) What is the value of the 7 in the number 871,943?
- 19) What is the value of the 3 in the number 69,354?
- 20) What is the value of the 7 in the number 3,876,129?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
