

Solve each problem.

- 1) What is the value of the 7 in the number 138,749?
- 2) What is the value of the 7 in the number 73,814?
- 3) What is the value of the 9 in the number 175,934?
- 4) What is the value of the 3 in the number 6,513,748?
- 5) What is the value of the 7 in the number 97,134?
- 6) What is the value of the 5 in the number 19,853?
- 7) What is the value of the 6 in the number 65,149?
- 8) What is the value of the 5 in the number 54?
- 9) What is the value of the 9 in the number 961?
- 10) What is the value of the 9 in the number 62,497?
- 11) What is the value of the 6 in the number 386,152?
- 12) What is the value of the 7 in the number 3,178,259?
- 13) What is the value of the 2 in the number 7,529,864?
- 14) What is the value of the 8 in the number 381?
- 15) What is the value of the 8 in the number 538,674?
- 16) What is the value of the 3 in the number 6,235,148?
- 17) What is the value of the 3 in the number 3,176?
- 18) What is the value of the 8 in the number 7,489?
- 19) What is the value of the 4 in the number 85,432?
- 20) What is the value of the 7 in the number 58,714?
