

Solve each problem.

- 1) What is the value of the 2 in the number 21?
- 2) What is the value of the 9 in the number 94,127?
- 3) What is the value of the 2 in the number 56,429?
- 4) What is the value of the 9 in the number 56,792,318?
- 5) What is the value of the 5 in the number 682,957?
- 6) What is the value of the 8 in the number 6,538,214?
- 7) What is the value of the 7 in the number 138,679?
- 8) What is the value of the 6 in the number 786,291?
- 9) What is the value of the 7 in the number 798?
- 10) What is the value of the 8 in the number 26,589,173?
- 11) What is the value of the 5 in the number 7,356,214?
- 12) What is the value of the 8 in the number 836?
- 13) What is the value of the 9 in the number 59,348?
- 14) What is the value of the 8 in the number 861?
- 15) What is the value of the 3 in the number 13,498?
- 16) What is the value of the 7 in the number 3,867,419?
- 17) What is the value of the 2 in the number 7,429?
- 18) What is the value of the 4 in the number 47?
- 19) What is the value of the 7 in the number 3,647,129?
- 20) What is the value of the 4 in the number 946,715?
