

Solve each problem.

- 1) What is the value of the 4 in the number 41?
- 2) What is the value of the 5 in the number 784,156?
- 3) What is the value of the 8 in the number 387?
- 4) What is the value of the 2 in the number 765,291?
- 5) What is the value of the 5 in the number 256,948?
- 6) What is the value of the 9 in the number 52,943?
- 7) What is the value of the 4 in the number 9,134,685?
- 8) What is the value of the 8 in the number 5,873?
- 9) What is the value of the 4 in the number 4,368?
- 10) What is the value of the 5 in the number 85,796?
- 11) What is the value of the 5 in the number 45,173?
- 12) What is the value of the 5 in the number 74,563?
- 13) What is the value of the 6 in the number 9,367,218?
- 14) What is the value of the 9 in the number 97,682?
- 15) What is the value of the 4 in the number 142,375?
- 16) What is the value of the 7 in the number 978?
- 17) What is the value of the 4 in the number 74,289?
- 18) What is the value of the 6 in the number 9,167,345?
- 19) What is the value of the 3 in the number 91,327?
- 20) What is the value of the 7 in the number 379?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
