Using Numbers with Place Values

Name:

Solve each problem.

Ex) Using the numbers: 5 , 1 , 2

What number can you make that is larger than 512?

Ex. _____**521**_____

1) Using the numbers: 2 , 6 , 9

What number can you make that is larger than 926?

1. _____

2) Using the numbers: 5 , 6 , 0

What number can you make that is larger than 605?

2. _____

3. _____

3) Using the numbers: 0 , 2 , 9

What number can you make that is larger than 902?

4. _____

4) Using the numbers: 1 , 4 , 0

What number can you make that is larger than 401?

5. _____

5) Using the numbers: 9 , 6 , 5

What number can you make that is larger than 956?

6. _____

7. _____

6) Using the numbers: 8 , 6 , 7

What number can you make that is larger than 867?

8. _____

7) Using the numbers: 5 , 1 , 9

What number can you make that is larger than 915?

9. _____

8) Using the numbers: 8 , 2 , 0

What number can you make that is larger than 802?

10. _____

11. _____

9) Using the numbers: 8 , 0 , 6

What number can you make that is larger than 806?

12. _____

10) Using the numbers: 3 , 0 , 8

What number can you make that is larger than 803?

13. _____

11) Using the numbers: 8 , 4 , 1

What number can you make that is larger than 814?

14. _____

12) Using the numbers: 8 , 3 , 1

What number can you make that is larger than 813?

13) Using the numbers: 7 , 5 , 3

What number can you make that is larger than 735?

14) Using the numbers: 0 , 1 , 8

What number can you make that is larger than 801?
